Ein Soldat der Kirche

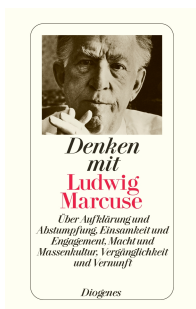

Diogenes

Ignatius of Loyola, Spanish Grande and officer, founder and first general of the Jesuit Order, is one of the myth-forming politicians in world history. Ludwig Marcuse reports on the Renaissance in a clear and vivid way using the life of Ignatius of Loyola as a vehicle. The horrors of the inquisition and ideals of the Reformation once again are shown to be means to an end: gaining, expanding and retaining power.

Ludwig Marcuse (1894 – 1971) was born in Berlin. Immediately after the Reichstag fire he emigrated first to France, then to the USA, became a US citizen in 1944. After years of destitution he became professor for philosophy and German literature at the University of Southern California in Los Angeles. As a brilliant stylist he suffered the fate of Schopenhauer and Nietzsche: Philosophers saw him as a writer, and writers considered him to be a philosopher. After becoming an emeritus professor, he returned to Germany in 1963.
